July 2022

U.A. LOCAL NO. 159 DEFINED CONTRIBUTION PLAN

NOTICE TO PARTICIPANTS REGARDING LIFETIME INCOME DISCLOSURE

Starting this month, your quarterly statements from Vanguard will provide additional information about the money currently in your U.A. Local No. 159 Defined Contribution Plan account: specifically, they will include examples on how this money could be spread out over your lifetime upon retirement. **These examples are provided for informational purposes only and you are not required to respond in any way.** The examples are required to be provided by federal law.

The purpose of this is to provide you an illustrative example about how your funds could be used to provide lifetime benefits upon retirement, rather than just a lump sum payment option. They provide illustrations of how the funds currently in your account could be used to provide either a single life annuity or a qualified joint 100% survivor annuity upon an assumed retirement age of 67. Please note, under the Plan you can retire at an earlier age, but the examples will assume a retirement age of 67 and will use the amounts currently in your account.

These are examples only, and are only for informational purposes. The Plan currently does not offer monthly lifetime benefit options.

If you have any questions, please feel free to contact the Administrative Office.

July 2022

U.A. LOCAL NO. 159 DEFINED CONTRIBUTION PLAN

NOTICE TO PARTICIPANTS REGARDING LIFETIME INCOME DISCLOSURE

Starting this month, your quarterly statements from Vanguard will provide additional information about the money currently in your U.A. Local No. 159 Defined Contribution Plan account: specifically, they will include examples on how this money could be spread out over your lifetime upon retirement. **These examples are provided for informational purposes only and you are not required to respond in any way.** The examples are required to be provided by federal law.

The purpose of this is to provide you an illustrative example about how your funds could be used to provide lifetime benefits upon retirement, rather than just a lump sum payment option. They provide illustrations of how the funds currently in your account could be used to provide either a single life annuity or a qualified joint 100% survivor annuity upon an assumed retirement age of 67. Please note, under the Plan you can retire at an earlier age, but the examples will assume a retirement age of 67 and will use the amounts currently in your account.

These are examples only, and are only for informational purposes. The Plan currently does not offer monthly lifetime benefit options.

If you have any questions, please feel free to contact the Administrative Office.

July 2022

U.A. LOCAL NO. 159 DEFINED CONTRIBUTION PLAN

NOTICE TO PARTICIPANTS REGARDING LIFETIME INCOME DISCLOSURE

Starting this month, your quarterly statements from Vanguard will provide additional information about the money currently in your U.A. Local No. 159 Defined Contribution Plan account: specifically, they will include examples on how this money could be spread out over your lifetime upon retirement. **These examples are provided for informational purposes only and you are not required to respond in any way.** The examples are required to be provided by federal law.

The purpose of this is to provide you an illustrative example about how your funds could be used to provide lifetime benefits upon retirement, rather than just a lump sum payment option. They provide illustrations of how the funds currently in your account could be used to provide either a single life annuity or a qualified joint 100% survivor annuity upon an assumed retirement age of 67. Please note, under the Plan you can retire at an earlier age, but the examples will assume a retirement age of 67 and will use the amounts currently in your account.

These are examples only, and are only for informational purposes. The Plan currently does not offer monthly lifetime benefit options.

If you have any questions, please feel free to contact the Administrative Office.

July 2022

U.A. LOCAL NO. 159 DEFINED CONTRIBUTION PLAN

NOTICE TO PARTICIPANTS REGARDING LIFETIME INCOME DISCLOSURE

Starting this month, your quarterly statements from Vanguard will provide additional information about the money currently in your U.A. Local No. 159 Defined Contribution Plan account: specifically, they will include examples on how this money could be spread out over your lifetime upon retirement. **These examples are provided for informational purposes only and you are not required to respond in any way.** The examples are required to be provided by federal law.

The purpose of this is to provide you an illustrative example about how your funds could be used to provide lifetime benefits upon retirement, rather than just a lump sum payment option. They provide illustrations of how the funds currently in your account could be used to provide either a single life annuity or a qualified joint 100% survivor annuity upon an assumed retirement age of 67. Please note, under the Plan you can retire at an earlier age, but the examples will assume a retirement age of 67 and will use the amounts currently in your account.

These are examples only, and are only for informational purposes. The Plan currently does not offer monthly lifetime benefit options.

If you have any questions, please feel free to contact the Administrative Office.

July 2022

U.A. LOCAL NO. 159 DEFINED CONTRIBUTION PLAN

NOTICE TO PARTICIPANTS REGARDING LIFETIME INCOME DISCLOSURE

Starting this month, your quarterly statements from Vanguard will provide additional information about the money currently in your U.A. Local No. 159 Defined Contribution Plan account: specifically, they will include examples on how this money could be spread out over your lifetime upon retirement. **These examples are provided for informational purposes only and you are not required to respond in any way.** The examples are required to be provided by federal law.

The purpose of this is to provide you an illustrative example about how your funds could be used to provide lifetime benefits upon retirement, rather than just a lump sum payment option. They provide illustrations of how the funds currently in your account could be used to provide either a single life annuity or a qualified joint 100% survivor annuity upon an assumed retirement age of 67. Please note, under the Plan you can retire at an earlier age, but the examples will assume a retirement age of 67 and will use the amounts currently in your account.

These are examples only, and are only for informational purposes. The Plan currently does not offer monthly lifetime benefit options.

If you have any questions, please feel free to contact the Administrative Office.

July 2022

U.A. LOCAL NO. 159 DEFINED CONTRIBUTION PLAN

NOTICE TO PARTICIPANTS REGARDING LIFETIME INCOME DISCLOSURE

Starting this month, your quarterly statements from Vanguard will provide additional information about the money currently in your U.A. Local No. 159 Defined Contribution Plan account: specifically, they will include examples on how this money could be spread out over your lifetime upon retirement. **These examples are provided for informational purposes only and you are not required to respond in any way.** The examples are required to be provided by federal law.

The purpose of this is to provide you an illustrative example about how your funds could be used to provide lifetime benefits upon retirement, rather than just a lump sum payment option. They provide illustrations of how the funds currently in your account could be used to provide either a single life annuity or a qualified joint 100% survivor annuity upon an assumed retirement age of 67. Please note, under the Plan you can retire at an earlier age, but the examples will assume a retirement age of 67 and will use the amounts currently in your account.

These are examples only, and are only for informational purposes. The Plan currently does not offer monthly lifetime benefit options.

If you have any questions, please feel free to contact the Administrative Office.

July 2022

U.A. LOCAL NO. 159 DEFINED CONTRIBUTION PLAN

NOTICE TO PARTICIPANTS REGARDING LIFETIME INCOME DISCLOSURE

Starting this month, your quarterly statements from Vanguard will provide additional information about the money currently in your U.A. Local No. 159 Defined Contribution Plan account: specifically, they will include examples on how this money could be spread out over your lifetime upon retirement. **These examples are provided for informational purposes only and you are not required to respond in any way.** The examples are required to be provided by federal law.

The purpose of this is to provide you an illustrative example about how your funds could be used to provide lifetime benefits upon retirement, rather than just a lump sum payment option. They provide illustrations of how the funds currently in your account could be used to provide either a single life annuity or a qualified joint 100% survivor annuity upon an assumed retirement age of 67. Please note, under the Plan you can retire at an earlier age, but the examples will assume a retirement age of 67 and will use the amounts currently in your account.

These are examples only, and are only for informational purposes. The Plan currently does not offer monthly lifetime benefit options.

If you have any questions, please feel free to contact the Administrative Office.

July 2022

U.A. LOCAL NO. 159 DEFINED CONTRIBUTION PLAN

NOTICE TO PARTICIPANTS REGARDING LIFETIME INCOME DISCLOSURE

Starting this month, your quarterly statements from Vanguard will provide additional information about the money currently in your U.A. Local No. 159 Defined Contribution Plan account: specifically, they will include examples on how this money could be spread out over your lifetime upon retirement. **These examples are provided for informational purposes only and you are not required to respond in any way.** The examples are required to be provided by federal law.

The purpose of this is to provide you an illustrative example about how your funds could be used to provide lifetime benefits upon retirement, rather than just a lump sum payment option. They provide illustrations of how the funds currently in your account could be used to provide either a single life annuity or a qualified joint 100% survivor annuity upon an assumed retirement age of 67. Please note, under the Plan you can retire at an earlier age, but the examples will assume a retirement age of 67 and will use the amounts currently in your account.

These are examples only, and are only for informational purposes. The Plan currently does not offer monthly lifetime benefit options.

If you have any questions, please feel free to contact the Administrative Office.

July 2022

U.A. LOCAL NO. 159 DEFINED CONTRIBUTION PLAN

NOTICE TO PARTICIPANTS REGARDING LIFETIME INCOME DISCLOSURE

Starting this month, your quarterly statements from Vanguard will provide additional information about the money currently in your U.A. Local No. 159 Defined Contribution Plan account: specifically, they will include examples on how this money could be spread out over your lifetime upon retirement. **These examples are provided for informational purposes only and you are not required to respond in any way.** The examples are required to be provided by federal law.

The purpose of this is to provide you an illustrative example about how your funds could be used to provide lifetime benefits upon retirement, rather than just a lump sum payment option. They provide illustrations of how the funds currently in your account could be used to provide either a single life annuity or a qualified joint 100% survivor annuity upon an assumed retirement age of 67. Please note, under the Plan you can retire at an earlier age, but the examples will assume a retirement age of 67 and will use the amounts currently in your account.

These are examples only, and are only for informational purposes. The Plan currently does not offer monthly lifetime benefit options.

If you have any questions, please feel free to contact the Administrative Office.

July 2022

U.A. LOCAL NO. 159 DEFINED CONTRIBUTION PLAN

NOTICE TO PARTICIPANTS REGARDING LIFETIME INCOME DISCLOSURE

Starting this month, your quarterly statements from Vanguard will provide additional information about the money currently in your U.A. Local No. 159 Defined Contribution Plan account: specifically, they will include examples on how this money could be spread out over your lifetime upon retirement. **These examples are provided for informational purposes only and you are not required to respond in any way.** The examples are required to be provided by federal law.

The purpose of this is to provide you an illustrative example about how your funds could be used to provide lifetime benefits upon retirement, rather than just a lump sum payment option. They provide illustrations of how the funds currently in your account could be used to provide either a single life annuity or a qualified joint 100% survivor annuity upon an assumed retirement age of 67. Please note, under the Plan you can retire at an earlier age, but the examples will assume a retirement age of 67 and will use the amounts currently in your account.

These are examples only, and are only for informational purposes. The Plan currently does not offer monthly lifetime benefit options.

If you have any questions, please feel free to contact the Administrative Office.

July 2022

U.A. LOCAL NO. 159 DEFINED CONTRIBUTION PLAN

NOTICE TO PARTICIPANTS REGARDING LIFETIME INCOME DISCLOSURE

Starting this month, your quarterly statements from Vanguard will provide additional information about the money currently in your U.A. Local No. 159 Defined Contribution Plan account: specifically, they will include examples on how this money could be spread out over your lifetime upon retirement. **These examples are provided for informational purposes only and you are not required to respond in any way.** The examples are required to be provided by federal law.

The purpose of this is to provide you an illustrative example about how your funds could be used to provide lifetime benefits upon retirement, rather than just a lump sum payment option. They provide illustrations of how the funds currently in your account could be used to provide either a single life annuity or a qualified joint 100% survivor annuity upon an assumed retirement age of 67. Please note, under the Plan you can retire at an earlier age, but the examples will assume a retirement age of 67 and will use the amounts currently in your account.

These are examples only, and are only for informational purposes. The Plan currently does not offer monthly lifetime benefit options.

If you have any questions, please feel free to contact the Administrative Office.

July 2022

U.A. LOCAL NO. 159 DEFINED CONTRIBUTION PLAN

NOTICE TO PARTICIPANTS REGARDING LIFETIME INCOME DISCLOSURE

Starting this month, your quarterly statements from Vanguard will provide additional information about the money currently in your U.A. Local No. 159 Defined Contribution Plan account: specifically, they will include examples on how this money could be spread out over your lifetime upon retirement. **These examples are provided for informational purposes only and you are not required to respond in any way.** The examples are required to be provided by federal law.

The purpose of this is to provide you an illustrative example about how your funds could be used to provide lifetime benefits upon retirement, rather than just a lump sum payment option. They provide illustrations of how the funds currently in your account could be used to provide either a single life annuity or a qualified joint 100% survivor annuity upon an assumed retirement age of 67. Please note, under the Plan you can retire at an earlier age, but the examples will assume a retirement age of 67 and will use the amounts currently in your account.

These are examples only, and are only for informational purposes. The Plan currently does not offer monthly lifetime benefit options.

If you have any questions, please feel free to contact the Administrative Office.

July 2022

U.A. LOCAL NO. 159 DEFINED CONTRIBUTION PLAN

NOTICE TO PARTICIPANTS REGARDING LIFETIME INCOME DISCLOSURE

Starting this month, your quarterly statements from Vanguard will provide additional information about the money currently in your U.A. Local No. 159 Defined Contribution Plan account: specifically, they will include examples on how this money could be spread out over your lifetime upon retirement. **These examples are provided for informational purposes only and you are not required to respond in any way.** The examples are required to be provided by federal law.

The purpose of this is to provide you an illustrative example about how your funds could be used to provide lifetime benefits upon retirement, rather than just a lump sum payment option. They provide illustrations of how the funds currently in your account could be used to provide either a single life annuity or a qualified joint 100% survivor annuity upon an assumed retirement age of 67. Please note, under the Plan you can retire at an earlier age, but the examples will assume a retirement age of 67 and will use the amounts currently in your account.

These are examples only, and are only for informational purposes. The Plan currently does not offer monthly lifetime benefit options.

If you have any questions, please feel free to contact the Administrative Office.

July 2022

U.A. LOCAL NO. 159 DEFINED CONTRIBUTION PLAN

NOTICE TO PARTICIPANTS REGARDING LIFETIME INCOME DISCLOSURE

Starting this month, your quarterly statements from Vanguard will provide additional information about the money currently in your U.A. Local No. 159 Defined Contribution Plan account: specifically, they will include examples on how this money could be spread out over your lifetime upon retirement. **These examples are provided for informational purposes only and you are not required to respond in any way.** The examples are required to be provided by federal law.

The purpose of this is to provide you an illustrative example about how your funds could be used to provide lifetime benefits upon retirement, rather than just a lump sum payment option. They provide illustrations of how the funds currently in your account could be used to provide either a single life annuity or a qualified joint 100% survivor annuity upon an assumed retirement age of 67. Please note, under the Plan you can retire at an earlier age, but the examples will assume a retirement age of 67 and will use the amounts currently in your account.

These are examples only, and are only for informational purposes. The Plan currently does not offer monthly lifetime benefit options.

If you have any questions, please feel free to contact the Administrative Office.

July 2022

U.A. LOCAL NO. 159 DEFINED CONTRIBUTION PLAN

NOTICE TO PARTICIPANTS REGARDING LIFETIME INCOME DISCLOSURE

Starting this month, your quarterly statements from Vanguard will provide additional information about the money currently in your U.A. Local No. 159 Defined Contribution Plan account: specifically, they will include examples on how this money could be spread out over your lifetime upon retirement. **These examples are provided for informational purposes only and you are not required to respond in any way.** The examples are required to be provided by federal law.

The purpose of this is to provide you an illustrative example about how your funds could be used to provide lifetime benefits upon retirement, rather than just a lump sum payment option. They provide illustrations of how the funds currently in your account could be used to provide either a single life annuity or a qualified joint 100% survivor annuity upon an assumed retirement age of 67. Please note, under the Plan you can retire at an earlier age, but the examples will assume a retirement age of 67 and will use the amounts currently in your account.

These are examples only, and are only for informational purposes. The Plan currently does not offer monthly lifetime benefit options.

If you have any questions, please feel free to contact the Administrative Office.

July 2022

U.A. LOCAL NO. 159 DEFINED CONTRIBUTION PLAN

NOTICE TO PARTICIPANTS REGARDING LIFETIME INCOME DISCLOSURE

Starting this month, your quarterly statements from Vanguard will provide additional information about the money currently in your U.A. Local No. 159 Defined Contribution Plan account: specifically, they will include examples on how this money could be spread out over your lifetime upon retirement. **These examples are provided for informational purposes only and you are not required to respond in any way.** The examples are required to be provided by federal law.

The purpose of this is to provide you an illustrative example about how your funds could be used to provide lifetime benefits upon retirement, rather than just a lump sum payment option. They provide illustrations of how the funds currently in your account could be used to provide either a single life annuity or a qualified joint 100% survivor annuity upon an assumed retirement age of 67. Please note, under the Plan you can retire at an earlier age, but the examples will assume a retirement age of 67 and will use the amounts currently in your account.

These are examples only, and are only for informational purposes. The Plan currently does not offer monthly lifetime benefit options.

If you have any questions, please feel free to contact the Administrative Office.

July 2022

U.A. LOCAL NO. 159 DEFINED CONTRIBUTION PLAN

NOTICE TO PARTICIPANTS REGARDING LIFETIME INCOME DISCLOSURE

Starting this month, your quarterly statements from Vanguard will provide additional information about the money currently in your U.A. Local No. 159 Defined Contribution Plan account: specifically, they will include examples on how this money could be spread out over your lifetime upon retirement. **These examples are provided for informational purposes only and you are not required to respond in any way.** The examples are required to be provided by federal law.

The purpose of this is to provide you an illustrative example about how your funds could be used to provide lifetime benefits upon retirement, rather than just a lump sum payment option. They provide illustrations of how the funds currently in your account could be used to provide either a single life annuity or a qualified joint 100% survivor annuity upon an assumed retirement age of 67. Please note, under the Plan you can retire at an earlier age, but the examples will assume a retirement age of 67 and will use the amounts currently in your account.

These are examples only, and are only for informational purposes. The Plan currently does not offer monthly lifetime benefit options.

If you have any questions, please feel free to contact the Administrative Office.

July 2022

U.A. LOCAL NO. 159 DEFINED CONTRIBUTION PLAN

NOTICE TO PARTICIPANTS REGARDING LIFETIME INCOME DISCLOSURE

Starting this month, your quarterly statements from Vanguard will provide additional information about the money currently in your U.A. Local No. 159 Defined Contribution Plan account: specifically, they will include examples on how this money could be spread out over your lifetime upon retirement. **These examples are provided for informational purposes only and you are not required to respond in any way.** The examples are required to be provided by federal law.

The purpose of this is to provide you an illustrative example about how your funds could be used to provide lifetime benefits upon retirement, rather than just a lump sum payment option. They provide illustrations of how the funds currently in your account could be used to provide either a single life annuity or a qualified joint 100% survivor annuity upon an assumed retirement age of 67. Please note, under the Plan you can retire at an earlier age, but the examples will assume a retirement age of 67 and will use the amounts currently in your account.

These are examples only, and are only for informational purposes. The Plan currently does not offer monthly lifetime benefit options.

If you have any questions, please feel free to contact the Administrative Office.

July 2022

U.A. LOCAL NO. 159 DEFINED CONTRIBUTION PLAN

NOTICE TO PARTICIPANTS REGARDING LIFETIME INCOME DISCLOSURE

Starting this month, your quarterly statements from Vanguard will provide additional information about the money currently in your U.A. Local No. 159 Defined Contribution Plan account: specifically, they will include examples on how this money could be spread out over your lifetime upon retirement. **These examples are provided for informational purposes only and you are not required to respond in any way.** The examples are required to be provided by federal law.

The purpose of this is to provide you an illustrative example about how your funds could be used to provide lifetime benefits upon retirement, rather than just a lump sum payment option. They provide illustrations of how the funds currently in your account could be used to provide either a single life annuity or a qualified joint 100% survivor annuity upon an assumed retirement age of 67. Please note, under the Plan you can retire at an earlier age, but the examples will assume a retirement age of 67 and will use the amounts currently in your account.

These are examples only, and are only for informational purposes. The Plan currently does not offer monthly lifetime benefit options.

If you have any questions, please feel free to contact the Administrative Office.

July 2022

U.A. LOCAL NO. 159 DEFINED CONTRIBUTION PLAN

NOTICE TO PARTICIPANTS REGARDING LIFETIME INCOME DISCLOSURE

Starting this month, your quarterly statements from Vanguard will provide additional information about the money currently in your U.A. Local No. 159 Defined Contribution Plan account: specifically, they will include examples on how this money could be spread out over your lifetime upon retirement. **These examples are provided for informational purposes only and you are not required to respond in any way.** The examples are required to be provided by federal law.

The purpose of this is to provide you an illustrative example about how your funds could be used to provide lifetime benefits upon retirement, rather than just a lump sum payment option. They provide illustrations of how the funds currently in your account could be used to provide either a single life annuity or a qualified joint 100% survivor annuity upon an assumed retirement age of 67. Please note, under the Plan you can retire at an earlier age, but the examples will assume a retirement age of 67 and will use the amounts currently in your account.

These are examples only, and are only for informational purposes. The Plan currently does not offer monthly lifetime benefit options.

If you have any questions, please feel free to contact the Administrative Office.

July 2022

U.A. LOCAL NO. 159 DEFINED CONTRIBUTION PLAN

NOTICE TO PARTICIPANTS REGARDING LIFETIME INCOME DISCLOSURE

Starting this month, your quarterly statements from Vanguard will provide additional information about the money currently in your U.A. Local No. 159 Defined Contribution Plan account: specifically, they will include examples on how this money could be spread out over your lifetime upon retirement. **These examples are provided for informational purposes only and you are not required to respond in any way.** The examples are required to be provided by federal law.

The purpose of this is to provide you an illustrative example about how your funds could be used to provide lifetime benefits upon retirement, rather than just a lump sum payment option. They provide illustrations of how the funds currently in your account could be used to provide either a single life annuity or a qualified joint 100% survivor annuity upon an assumed retirement age of 67. Please note, under the Plan you can retire at an earlier age, but the examples will assume a retirement age of 67 and will use the amounts currently in your account.

These are examples only, and are only for informational purposes. The Plan currently does not offer monthly lifetime benefit options.

If you have any questions, please feel free to contact the Administrative Office.

July 2022

U.A. LOCAL NO. 159 DEFINED CONTRIBUTION PLAN

NOTICE TO PARTICIPANTS REGARDING LIFETIME INCOME DISCLOSURE

Starting this month, your quarterly statements from Vanguard will provide additional information about the money currently in your U.A. Local No. 159 Defined Contribution Plan account: specifically, they will include examples on how this money could be spread out over your lifetime upon retirement. **These examples are provided for informational purposes only and you are not required to respond in any way.** The examples are required to be provided by federal law.

The purpose of this is to provide you an illustrative example about how your funds could be used to provide lifetime benefits upon retirement, rather than just a lump sum payment option. They provide illustrations of how the funds currently in your account could be used to provide either a single life annuity or a qualified joint 100% survivor annuity upon an assumed retirement age of 67. Please note, under the Plan you can retire at an earlier age, but the examples will assume a retirement age of 67 and will use the amounts currently in your account.

These are examples only, and are only for informational purposes. The Plan currently does not offer monthly lifetime benefit options.

If you have any questions, please feel free to contact the Administrative Office.

July 2022

U.A. LOCAL NO. 159 DEFINED CONTRIBUTION PLAN

NOTICE TO PARTICIPANTS REGARDING LIFETIME INCOME DISCLOSURE

Starting this month, your quarterly statements from Vanguard will provide additional information about the money currently in your U.A. Local No. 159 Defined Contribution Plan account: specifically, they will include examples on how this money could be spread out over your lifetime upon retirement. **These examples are provided for informational purposes only and you are not required to respond in any way.** The examples are required to be provided by federal law.

The purpose of this is to provide you an illustrative example about how your funds could be used to provide lifetime benefits upon retirement, rather than just a lump sum payment option. They provide illustrations of how the funds currently in your account could be used to provide either a single life annuity or a qualified joint 100% survivor annuity upon an assumed retirement age of 67. Please note, under the Plan you can retire at an earlier age, but the examples will assume a retirement age of 67 and will use the amounts currently in your account.

These are examples only, and are only for informational purposes. The Plan currently does not offer monthly lifetime benefit options.

If you have any questions, please feel free to contact the Administrative Office.

July 2022

U.A. LOCAL NO. 159 DEFINED CONTRIBUTION PLAN

NOTICE TO PARTICIPANTS REGARDING LIFETIME INCOME DISCLOSURE

Starting this month, your quarterly statements from Vanguard will provide additional information about the money currently in your U.A. Local No. 159 Defined Contribution Plan account: specifically, they will include examples on how this money could be spread out over your lifetime upon retirement. **These examples are provided for informational purposes only and you are not required to respond in any way.** The examples are required to be provided by federal law.

The purpose of this is to provide you an illustrative example about how your funds could be used to provide lifetime benefits upon retirement, rather than just a lump sum payment option. They provide illustrations of how the funds currently in your account could be used to provide either a single life annuity or a qualified joint 100% survivor annuity upon an assumed retirement age of 67. Please note, under the Plan you can retire at an earlier age, but the examples will assume a retirement age of 67 and will use the amounts currently in your account.

These are examples only, and are only for informational purposes. The Plan currently does not offer monthly lifetime benefit options.

If you have any questions, please feel free to contact the Administrative Office.

July 2022

U.A. LOCAL NO. 159 DEFINED CONTRIBUTION PLAN

NOTICE TO PARTICIPANTS REGARDING LIFETIME INCOME DISCLOSURE

Starting this month, your quarterly statements from Vanguard will provide additional information about the money currently in your U.A. Local No. 159 Defined Contribution Plan account: specifically, they will include examples on how this money could be spread out over your lifetime upon retirement. **These examples are provided for informational purposes only and you are not required to respond in any way.** The examples are required to be provided by federal law.

The purpose of this is to provide you an illustrative example about how your funds could be used to provide lifetime benefits upon retirement, rather than just a lump sum payment option. They provide illustrations of how the funds currently in your account could be used to provide either a single life annuity or a qualified joint 100% survivor annuity upon an assumed retirement age of 67. Please note, under the Plan you can retire at an earlier age, but the examples will assume a retirement age of 67 and will use the amounts currently in your account.

These are examples only, and are only for informational purposes. The Plan currently does not offer monthly lifetime benefit options.

If you have any questions, please feel free to contact the Administrative Office.

July 2022

U.A. LOCAL NO. 159 DEFINED CONTRIBUTION PLAN

NOTICE TO PARTICIPANTS REGARDING LIFETIME INCOME DISCLOSURE

Starting this month, your quarterly statements from Vanguard will provide additional information about the money currently in your U.A. Local No. 159 Defined Contribution Plan account: specifically, they will include examples on how this money could be spread out over your lifetime upon retirement. **These examples are provided for informational purposes only and you are not required to respond in any way.** The examples are required to be provided by federal law.

The purpose of this is to provide you an illustrative example about how your funds could be used to provide lifetime benefits upon retirement, rather than just a lump sum payment option. They provide illustrations of how the funds currently in your account could be used to provide either a single life annuity or a qualified joint 100% survivor annuity upon an assumed retirement age of 67. Please note, under the Plan you can retire at an earlier age, but the examples will assume a retirement age of 67 and will use the amounts currently in your account.

These are examples only, and are only for informational purposes. The Plan currently does not offer monthly lifetime benefit options.

If you have any questions, please feel free to contact the Administrative Office.

July 2022

U.A. LOCAL NO. 159 DEFINED CONTRIBUTION PLAN

NOTICE TO PARTICIPANTS REGARDING LIFETIME INCOME DISCLOSURE

Starting this month, your quarterly statements from Vanguard will provide additional information about the money currently in your U.A. Local No. 159 Defined Contribution Plan account: specifically, they will include examples on how this money could be spread out over your lifetime upon retirement. **These examples are provided for informational purposes only and you are not required to respond in any way.** The examples are required to be provided by federal law.

The purpose of this is to provide you an illustrative example about how your funds could be used to provide lifetime benefits upon retirement, rather than just a lump sum payment option. They provide illustrations of how the funds currently in your account could be used to provide either a single life annuity or a qualified joint 100% survivor annuity upon an assumed retirement age of 67. Please note, under the Plan you can retire at an earlier age, but the examples will assume a retirement age of 67 and will use the amounts currently in your account.

These are examples only, and are only for informational purposes. The Plan currently does not offer monthly lifetime benefit options.

If you have any questions, please feel free to contact the Administrative Office.

July 2022

U.A. LOCAL NO. 159 DEFINED CONTRIBUTION PLAN

NOTICE TO PARTICIPANTS REGARDING LIFETIME INCOME DISCLOSURE

Starting this month, your quarterly statements from Vanguard will provide additional information about the money currently in your U.A. Local No. 159 Defined Contribution Plan account: specifically, they will include examples on how this money could be spread out over your lifetime upon retirement. **These examples are provided for informational purposes only and you are not required to respond in any way.** The examples are required to be provided by federal law.

The purpose of this is to provide you an illustrative example about how your funds could be used to provide lifetime benefits upon retirement, rather than just a lump sum payment option. They provide illustrations of how the funds currently in your account could be used to provide either a single life annuity or a qualified joint 100% survivor annuity upon an assumed retirement age of 67. Please note, under the Plan you can retire at an earlier age, but the examples will assume a retirement age of 67 and will use the amounts currently in your account.

These are examples only, and are only for informational purposes. The Plan currently does not offer monthly lifetime benefit options.

If you have any questions, please feel free to contact the Administrative Office.

July 2022

U.A. LOCAL NO. 159 DEFINED CONTRIBUTION PLAN

NOTICE TO PARTICIPANTS REGARDING LIFETIME INCOME DISCLOSURE

Starting this month, your quarterly statements from Vanguard will provide additional information about the money currently in your U.A. Local No. 159 Defined Contribution Plan account: specifically, they will include examples on how this money could be spread out over your lifetime upon retirement. **These examples are provided for informational purposes only and you are not required to respond in any way.** The examples are required to be provided by federal law.

The purpose of this is to provide you an illustrative example about how your funds could be used to provide lifetime benefits upon retirement, rather than just a lump sum payment option. They provide illustrations of how the funds currently in your account could be used to provide either a single life annuity or a qualified joint 100% survivor annuity upon an assumed retirement age of 67. Please note, under the Plan you can retire at an earlier age, but the examples will assume a retirement age of 67 and will use the amounts currently in your account.

These are examples only, and are only for informational purposes. The Plan currently does not offer monthly lifetime benefit options.

If you have any questions, please feel free to contact the Administrative Office.

July 2022

U.A. LOCAL NO. 159 DEFINED CONTRIBUTION PLAN

NOTICE TO PARTICIPANTS REGARDING LIFETIME INCOME DISCLOSURE

Starting this month, your quarterly statements from Vanguard will provide additional information about the money currently in your U.A. Local No. 159 Defined Contribution Plan account: specifically, they will include examples on how this money could be spread out over your lifetime upon retirement. **These examples are provided for informational purposes only and you are not required to respond in any way.** The examples are required to be provided by federal law.

The purpose of this is to provide you an illustrative example about how your funds could be used to provide lifetime benefits upon retirement, rather than just a lump sum payment option. They provide illustrations of how the funds currently in your account could be used to provide either a single life annuity or a qualified joint 100% survivor annuity upon an assumed retirement age of 67. Please note, under the Plan you can retire at an earlier age, but the examples will assume a retirement age of 67 and will use the amounts currently in your account.

These are examples only, and are only for informational purposes. The Plan currently does not offer monthly lifetime benefit options.

If you have any questions, please feel free to contact the Administrative Office.

July 2022

U.A. LOCAL NO. 159 DEFINED CONTRIBUTION PLAN

NOTICE TO PARTICIPANTS REGARDING LIFETIME INCOME DISCLOSURE

Starting this month, your quarterly statements from Vanguard will provide additional information about the money currently in your U.A. Local No. 159 Defined Contribution Plan account: specifically, they will include examples on how this money could be spread out over your lifetime upon retirement. **These examples are provided for informational purposes only and you are not required to respond in any way.** The examples are required to be provided by federal law.

The purpose of this is to provide you an illustrative example about how your funds could be used to provide lifetime benefits upon retirement, rather than just a lump sum payment option. They provide illustrations of how the funds currently in your account could be used to provide either a single life annuity or a qualified joint 100% survivor annuity upon an assumed retirement age of 67. Please note, under the Plan you can retire at an earlier age, but the examples will assume a retirement age of 67 and will use the amounts currently in your account.

These are examples only, and are only for informational purposes. The Plan currently does not offer monthly lifetime benefit options.

If you have any questions, please feel free to contact the Administrative Office.

July 2022

U.A. LOCAL NO. 159 DEFINED CONTRIBUTION PLAN

NOTICE TO PARTICIPANTS REGARDING LIFETIME INCOME DISCLOSURE

Starting this month, your quarterly statements from Vanguard will provide additional information about the money currently in your U.A. Local No. 159 Defined Contribution Plan account: specifically, they will include examples on how this money could be spread out over your lifetime upon retirement. **These examples are provided for informational purposes only and you are not required to respond in any way.** The examples are required to be provided by federal law.

The purpose of this is to provide you an illustrative example about how your funds could be used to provide lifetime benefits upon retirement, rather than just a lump sum payment option. They provide illustrations of how the funds currently in your account could be used to provide either a single life annuity or a qualified joint 100% survivor annuity upon an assumed retirement age of 67. Please note, under the Plan you can retire at an earlier age, but the examples will assume a retirement age of 67 and will use the amounts currently in your account.

These are examples only, and are only for informational purposes. The Plan currently does not offer monthly lifetime benefit options.

If you have any questions, please feel free to contact the Administrative Office.

July 2022

U.A. LOCAL NO. 159 DEFINED CONTRIBUTION PLAN

NOTICE TO PARTICIPANTS REGARDING LIFETIME INCOME DISCLOSURE

Starting this month, your quarterly statements from Vanguard will provide additional information about the money currently in your U.A. Local No. 159 Defined Contribution Plan account: specifically, they will include examples on how this money could be spread out over your lifetime upon retirement. **These examples are provided for informational purposes only and you are not required to respond in any way.** The examples are required to be provided by federal law.

The purpose of this is to provide you an illustrative example about how your funds could be used to provide lifetime benefits upon retirement, rather than just a lump sum payment option. They provide illustrations of how the funds currently in your account could be used to provide either a single life annuity or a qualified joint 100% survivor annuity upon an assumed retirement age of 67. Please note, under the Plan you can retire at an earlier age, but the examples will assume a retirement age of 67 and will use the amounts currently in your account.

These are examples only, and are only for informational purposes. The Plan currently does not offer monthly lifetime benefit options.

If you have any questions, please feel free to contact the Administrative Office.

July 2022

U.A. LOCAL NO. 159 DEFINED CONTRIBUTION PLAN

NOTICE TO PARTICIPANTS REGARDING LIFETIME INCOME DISCLOSURE

Starting this month, your quarterly statements from Vanguard will provide additional information about the money currently in your U.A. Local No. 159 Defined Contribution Plan account: specifically, they will include examples on how this money could be spread out over your lifetime upon retirement. **These examples are provided for informational purposes only and you are not required to respond in any way.** The examples are required to be provided by federal law.

The purpose of this is to provide you an illustrative example about how your funds could be used to provide lifetime benefits upon retirement, rather than just a lump sum payment option. They provide illustrations of how the funds currently in your account could be used to provide either a single life annuity or a qualified joint 100% survivor annuity upon an assumed retirement age of 67. Please note, under the Plan you can retire at an earlier age, but the examples will assume a retirement age of 67 and will use the amounts currently in your account.

These are examples only, and are only for informational purposes. The Plan currently does not offer monthly lifetime benefit options.

If you have any questions, please feel free to contact the Administrative Office.

July 2022

U.A. LOCAL NO. 159 DEFINED CONTRIBUTION PLAN

NOTICE TO PARTICIPANTS REGARDING LIFETIME INCOME DISCLOSURE

Starting this month, your quarterly statements from Vanguard will provide additional information about the money currently in your U.A. Local No. 159 Defined Contribution Plan account: specifically, they will include examples on how this money could be spread out over your lifetime upon retirement. **These examples are provided for informational purposes only and you are not required to respond in any way.** The examples are required to be provided by federal law.

The purpose of this is to provide you an illustrative example about how your funds could be used to provide lifetime benefits upon retirement, rather than just a lump sum payment option. They provide illustrations of how the funds currently in your account could be used to provide either a single life annuity or a qualified joint 100% survivor annuity upon an assumed retirement age of 67. Please note, under the Plan you can retire at an earlier age, but the examples will assume a retirement age of 67 and will use the amounts currently in your account.

These are examples only, and are only for informational purposes. The Plan currently does not offer monthly lifetime benefit options.

If you have any questions, please feel free to contact the Administrative Office.

July 2022

U.A. LOCAL NO. 159 DEFINED CONTRIBUTION PLAN

NOTICE TO PARTICIPANTS REGARDING LIFETIME INCOME DISCLOSURE

Starting this month, your quarterly statements from Vanguard will provide additional information about the money currently in your U.A. Local No. 159 Defined Contribution Plan account: specifically, they will include examples on how this money could be spread out over your lifetime upon retirement. **These examples are provided for informational purposes only and you are not required to respond in any way.** The examples are required to be provided by federal law.

The purpose of this is to provide you an illustrative example about how your funds could be used to provide lifetime benefits upon retirement, rather than just a lump sum payment option. They provide illustrations of how the funds currently in your account could be used to provide either a single life annuity or a qualified joint 100% survivor annuity upon an assumed retirement age of 67. Please note, under the Plan you can retire at an earlier age, but the examples will assume a retirement age of 67 and will use the amounts currently in your account.

These are examples only, and are only for informational purposes. The Plan currently does not offer monthly lifetime benefit options.

If you have any questions, please feel free to contact the Administrative Office.
